CARBON TRADING CO.

CARBON MUNICIPALITY TO BUY TRACTOR-GRADER

The regular monthly meeting of the Municipal District of Carbon was held on Friday, May 18, all councillors being present.

Among the many items discussed was the application by the Calgary Power Co. to transmit a power line through the Carbon Municipality. This matter was passed by the Council.

The demonstration of the Holt Tractor for road work was discussed and as some of the councillors were not satisfied with the work done it was moved and passed that the Cletrac tractor be demonstrated, such demonstration to take place not later than Thursday, May 24, and if the Cletrac was found to be able to do the work equally as good as the Holt, using a 12 foot improved Russell grader, it was decided to purchase it. If such a demonstration was not held by that date the Council gave authority to have an order signed for the purchase of the Holt Caterpillar.

A motion was passed whereas the Council will purchase a 12 foot Russell Grader, the cost to be \$2850

Mr. H. J. Gimbel, the only applicant for tractor man, was given the job for the season 1928.

There were three applicants for Grader man, and the council decided in favor of Mr. Jas. Ramsay.

TWELVE GREAT RELIGIOUS GATHERINGS AT CARBON

Carbon, Alberta, should be the centre of great attraction from June 4th to 17th, when the United Church through its Official Board and minister, Rev. C. B. Oakley, will hold a special religious campaign.

There are few places better situated for a campaign of this nature than Carbon. This town is seven miles north of the Drumheller highway, by the Rockyford road. "Beautiful for situation" can be truly said of this snug little town. Camping facilities are superb, and tents may be erected either in the open or among the tall trees. Two large buildings, old school houses, are available for dining-room purposes or as a shelter in case of rain. Ample hotel accommodation can be secured and all your material needs will be looked after by capable business men in every line.

Important questions on religious matters will be discussed every evening at 8 p.m. by such outstanding men as Rev. H. W. Avison, M. A., B. D.; Rev. W. E. MacNiven, B. A.; Rev. Geo. A. Dickson, B. D.; Rev. Dr. Kirby, Rev. H. H. Bingham, D. D.; Rev. Dr. Lewis, Rev. Thos. Powell, D. D.; Rev. H. E. Gordon, B. A., and others. The people of this community and near by towns cannot afford to miss this great opportunity of listening to the Gospel as it will be presented by these noted divines.

Mr. H. A. Kidney, of Edmonton, arrived on Monday and inspected the office of the Carbon Municipality on Tuesday.

Eternal Vigilance Is the Price Of Safety

Because of the appalling loss of life through motor car accidents, Governments and municipalities are enacting ever more stringent laws governing the use of highways and the operation of automobiles. Laws regulating the speed of driving, governing the use of headlights, compelling cars to come to a full stop before proceeding to cross railway tracks have been passed, while signalling devices, signs, guard rails at curves, embankments, and other danger spots are erected, all with a view to protecting the public.

For the same reason laws are passed and regulations enforced governing the management of factories, mines, operation of railways and ships, laying down conditions under which women and girls may be employed, and stipulating a hundred and one things which must be done to safeguard workers in all departments of industrial life.

According to figures, the correctness of which are vouched for by the Midwest Safety Conference, as reported in a San Francisco paper, there were 24,000 deaths in the United States last year through traffic accidents, and 23,000 deaths through industrial accidents almost all of which were preventable.

But it will be a surprise to many to learn that accidents occurring in the homes of the United States took an even greater toll of life than did traffic accidents, or accidents in industry. Avoidable accidents resulting in death in United States homes in 1927, numbered 27,000, and, according to the report already referred to, "the bathtub and the step ladder were among the deadliest adjuncts of domestic life, and the two combined contributed a large proportion of these 27,000 home fatalities."

Traffic regulation and industrial safety laws are the business of the public as well as of the individual; hence the interest displayed by all governmental authority. Because they are susceptible of public regulation the problem they present, and which fills the newspapers today, should be easier than that of the household fatalities. As the San Francisco paper says, "It is not possible to put the equivalent of a traffic cop into every home to supervise the hanging of draperies, the dusting of walls and the training of the climbing vines. Nor would it be desirable even were it possible to have a uniformed public official handling careless people in and out of slippery bathtubs. The law cannot direct the turning on and off of gas cocks. It cannot keep matches out of the reach of children. It cannot be the keeper of the family medicine chest. It cannot make itself the custodian of the household arsenal and see that unloaded guns are always unloaded. It cannot prevent the starting of stove fires with kerosene, or the use of gasoline near a lighted lamp or a burning fire."

These and a multitude of other vigilances rest solely with the individual. Until the individual exercises the necessary caution the lurking dangers of the household will continue to take their toll.

Throughout this great Canadian west not a week passes but the newspapers tell the terrible story of a calamity in some home, resulting in death and maiming for life, the direct result of downright carelessness. A destructive prairie or forest fire rages because someone neglected to put out a camp fire, or dropped a match, or started burning straw or rubbish without taking necessary precautions. An explosion wrecks a home and takes a toll of life because gasoline was left where it should not have been. A child drinks a cup of lye in mistake for water, and dies or is crippled for life. And so on, and on, and on.

And all the laws, and regulations, and prohibitions that all the Parliaments, and Legislatures, and Municipal Councils in the country may pass cannot stop these tragedies. In the forceful slang of the day "it is up to the individual" to exercise caution, to be vigilant. Only so can the daily loss of life through these accidents in the home, in industry, and on the highways of our country be reduced and practically eliminated. Ninety-nine out of every one hundred of such accidents are preventable. It is for the people to realize this. When they do the accidents will cease; until they do realize it and govern themselves accordingly, sorrow, pain and loss will continue to be a permanent visitor in our midst.

Ideal Tourist Camp Of Calgary

The Calgary Automobile Club is planning to equip and operate what they claim will be the most modern automobile tourist camp in Western Canada. The camp will be well lighted and equipped with gas for cooking, water, shower baths, car shelters and other conveniences for the accommodations of motor tourists.

If a thing must be done there is no time like the present for doing it.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

World's Grain Congress

Will Mark Fiftieth Anniversary Of Coming Of The Railway and Birth Of Prairie Agriculture

The first world's grain congress scheduled for Regina, in 1932, will mark the 50th anniversary of the arrival of the Canadian Pacific Railway and the birth of prairie agriculture, outside of a comparatively small earlier settlement in Manitoba. In outlining steps preliminary to the summoning of the congress, Hon. W. R. Motherwell, Federal Minister of Agriculture, announced: "The proposal to hold a world's grain congress in Canada has been quietly discussed and canvassed by a few enthusiasts in the west for the past two or three years. In the meantime, the pronounced success of the world's poultry congress has stimulated and crystallized the proposed grain congress into possibility and visibility."

Named After Lindbergh

Canadian Island and Station Will Bear Aviator's Name

Colonel Lindbergh will have the honor of having an islet in British Columbia and a station in Alberta named after him. Paul Lambert, of New York, owns a small island in Scottie Bay, near Nanaimo, B.C., and asked the Geographic Boards of British Columbia and Canada to approve of the name Lindbergh for it. Neither board has objected. They claim as private property he can call it what he likes, as long as it doesn't interfere with present names.

The Dominion Geographic Board received an application from the Canadian National at Winnipeg to approve naming a railway station in Alberta after the famous aviator. The board has given approval.

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine
For Nervous, Sleepless
Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children.

"Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

First Thing Man Exploited

In 1300 B.C. Hittites Had Laws Governing Bees

The bee was probably the first created thing whose labors were exploited by mankind.

In the Hittite code of laws, dated 1300 B.C., punishments for the theft of bees and hives were mentioned. About 4000 B.C. the bee was adopted as the symbol for the King of Lower Egypt. Hieroglyphic bees were found from the First Dynasty down to Roman times, a period of some 4,000 years.

Bee-keeping was regularly practised in Egypt in 2600 B.C.; reliefs exist showing the conformation of the hives—mud structures placed one over the other—and the men engaged in pouring out the honey and sealing it in jars. But thousands of years before this the wild honey was extracted from rocks and trees. It was only in comparatively recent times, some six or seven thousand years ago, that it occurred to man to reduce the bee to slavery.

As a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

Thrift is a state of mind. A man buys a \$500 car as an example when he wants a \$5,000 car and can afford no car at all.

Insist on Minard's Lintment—accept no other.

Wireless Saved the Situation

Egypt Able To Greet Afghan Ruler With His National Anthem

A very embarrassing situation was averted and Egypt greeted King Amanullah and his queen with proper ceremony upon their arrival from Bombay, thanks to wireless.

A frantic message picked up by the P. and O. liner Rajputana, from an Egyptian operator, bemoaning the fact that Egypt was not acquainted with the Afghan national anthem. The purser had it wirelessly to Port Said, where it was deciphered—note for note—and upon the arrival of the royal pair they were greeted with a perfect rendition of their anthem.

Secured a Homestead

Two Brothers Maintain Long and Lonely Vigil For This Purpose

Determined to file on a homestead near his father's and brother's at Loyalist, Alberta, when the cancelled homestead rights were thrown open to the public at the Dominion Lands Office in Calgary, Cyrus Buxton, 18 years of age, assisted by his brother Paul, 24, kept first place outside the building for an entire week prior to the opening. A blanket was drawn across a corner of the building within a few feet of the entrance and here the brothers slept during their six hours' shifts. They were successful in securing the desired homestead.

Fort Vermilion Wheat

Wheat Grown Close To Arctic Circle Weighs 64 lbs. To the Bushel

Wheat from Fort Vermilion, 250 miles north of Peace River, weighed 64 pounds to the bushel and graded No. 2 without dockage. It was sent to the Alberta wheat pool by James McGraw, a farmer in that district. Although Fort Vermilion is close to the Arctic circle, wheat growing is not new in that area. In 1876, wheat grown at that point won the championship at the Centennial Exhibition at Philadelphia.

That Stomach of Yours!

London, Ont.—"I was in a general rundown state of health. I had indigestion and my stomach was weak and so sore I could not bear to touch it. I got where I did not have any health at all, was not able to follow my usual line of work. I saw Dr. Pierce's Golden Medical Discovery recommended for stomach trouble so I decided to try it and it relieved me of my indigestion and weak stomach and built me up in health. I can highly recommend the 'Discovery' to anyone who suffers as I did. It is excellent."—Francis Henry Cook, 471 Elizabeth St.

All dealers. Extra large bottles, liquid \$1.35; Tablets \$1.35 and 65c.

Write Dr. Pierce's Invalids Hotel, Buffalo, N. Y., for free advice.

HERCULES PERMANENT BUILDING PAPER

MR. THINKER--

here's your health

Most of your clients are thinkers. A few facts regarding Hercules will impress them. Hercules—in three grades, x, xx, xxx—is tested and proven wind proof and damp proof. A little thought will show them that this is all a building paper should be.

And above all, by these very qualities, Hercules becomes the protection of the most precious treasures of the occupants of any home—their health.

A sample of Hercules is yours for the asking.

ED. J. ROULEAU,
Editor and Publisher

Saturday, May 12, a traveller arrived in Carbon and went around to the different business men selling sets of Encyclopedias, which he said that the persons to whom he interviewed, had been mentioned to him for the receiving of a set of his books free. All that the person receiving them had to do was to write to the head office in Winnipeg stating his opinion of the books, and besides they were to receive the loose leaf extension which was sent out every three months. The

system in mention was to cost \$80, but the receiver of the free books was to receive this extension service at cost, viz. \$49.50. This is just another scheme of the book seller to dispose of their volumes and the cost of the producing of these books and extension service as outlined by the salesman was to be \$179.50. This is more than the famous books of knowledge cost in 20 volumes. The books in mention are no doubt worth the sum of \$49.50 if they are worth a cent, but at the same time the public ought not to be lured into the fact that they are receiving something for nothing, and buy this set of books whether they are to be useful or not, just because "someone has recommended your name as one who would be able to give an unbiased opinion on the works of the authors of the set of books." Beware of these salesmen and their "Something for Nothing" schemes. Nowadays you pay for what you get and no more.

Okanagan. — Word is received from Washington that the Okanagan project, during the last year, had a higher per acre yield of apples and a consequent higher acre return to the grower, than any government irrigation project in the United States. The local project, with 3,567 acres in apples, has a yield of 35,142,750 pounds, or 9,852 pounds to the acre, a yield which brought the growers a return of \$1,030,854, or the high record price of \$289 an acre. On the Yakima project the average yield was 9,602 pounds to the acre or at the rate of \$246.16 per acre. The nearest approach to the Washington record was on the Sun river project in Montana, where the average was \$153.33 an acre, followed by the Boise project, with a price of \$148.

Ottawa. — The Department of Agriculture has issued a report showing how the Canadian "Moth" plane is combating wheat rust—how the Canadian Air Force, the Federal Department of Agriculture and the pathological plant of the Manitoba Agricultural College at Winnipeg are uniting to fight the enemy. The report says: "The work consists mainly in the exposure of slides at different altitudes and at different locations. These aeroplane exposures attempt to collect from altitudes of from 1,000 to 5,000 feet the date of the earliest appearance of rust spores, the region over which they first appear, the rate at which the spore content of the air increases over various regions, the visibility of spores caught at these higher altitudes and the relation of certain environmental and climatic factors to the rate of development and spread of rust. Tightly stoppered bottles are used, containing wooden paddles to which are attached microscopic slides lightly smeared with vaseline. These slides are exposed for 15 minutes at varying altitudes; the slides replaced in the bottles and then returned to the Government laboratory at Winnipeg."

WORLD HAPPENINGS BRIEFLY TOLD

Tin has been discovered in Northern Manitoba according to a wire received by Premier J. Bracken from a prospector named Vina A. Lacker, of The Pas, Man.

The House of Lords unanimously adopted a resolution presented by Lord Reading that the proposals for the outlawry of war, presented by the U.S., should have prompt and favorable consideration.

Sir Frederick Stupart, director of the meteorological service of Canada, and of the Toronto Observatory, will retire at the end of the year. He had been connected with the service for more than 55 years.

Cheques amounting to over \$18,000 have been distributed among beet growers of southern Alberta by the Canadian Sugar Factories, Limited. This represents an additional payment of 50 cents a ton for 1927 beets, bringing the total amount paid for last year's deliveries up to \$7 per ton.

WAS VERY WEAK NERVOUS AND MELANCHOLY

Mrs. Geo. McKenzie, Campbellford, Ont., writes: "A short time ago I was troubled very badly with my heart and nerves, the cause of it, I think, was my going through the change of life."

"I was very weak and melancholy, and so nervous I could hardly bear to hear a clock ticking, and I did not sleep well."

"I was advised to try

so I sent at once for a box; took them and got another, and before they were all gone I felt good, my nerves are fine, I do not mind any noise, and I can sleep well. I can not recommend them too highly to those suffering as I did."

Price 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Will Open Marble Quarry

Marble found near the Hudson Bay railway north of The Pas is being investigated by a group of Winnipeg men with a view of opening a quarry.

Harry Buss's Back bothered him for over 17 years

Then Gin Pills relieved his pain

Harry H. Buss, of Egmont, B.C., suffered from a lame back for over 17 years. Every spring he was laid up from work. He tried many remedies, but could not obtain relief. He was advised to try Gin Pills and immediately obtained relief. Read his letter:

"There is nothing to compare with Gin Pills. I suffered unceasingly with a lame back for over 17 years. I tried almost everything, even to hot poultices. I could not sleep. After taking two and a half boxes of Gin Pills I am at work again and feel fine as a fiddle. I will not be without Gin Pills from now on. I am telling everyone in this settlement who has kidney or back trouble to give Gin Pills a trial. Publish my letter as I would like others to know what great relief Gin Pills gave me."

Pains in the back, constant headaches, swollen joints, painful urination, murky urine, brick dust deposits, scanty or too frequent voiding of urine are all symptoms of kidney trouble. Relieve your suffering and ensure a future free from kidney ailments. Get a box of Gin Pills today. 50c at all druggists. National Drug & Chemical Co. of Canada, Limited, Toronto, Canada.

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

We reached Plymouth in the early morning, while it was yet dark. How strange to find our ship suddenly still after days and nights of throbbing movement. How eager we were to get ashore to feel our feet, at last on English soil.

Our itinerary promised us great things, but who would have imagined an official reception at the hour of 7 a.m. We were scarcely ashore when we found ourselves greeted by the Mayor of Plymouth (Councillor W. H. J. Priest) who warmly bade us welcome to Plymouth and England, awakening that sense of kinship which we were to feel more and more deeply every day of the tour.

Here also we made the acquaintance of Mr. E. A. Weir, organizer of the programme and itinerary, and Mr. D. M. Johnson, European Colonization Manager, of the Canadian National Railways, London. Our programme told us that we were to have landed at Liverpool, but circumstances had ordained that we should have the pleasure, not only of seeing the historic town of Plymouth, but of travelling through some of the most beautiful countryside that the west of England can boast.

We were taken to Plymouth Hoe. We were shown where Drake finished his game of bowls before going to fight the Spanish Armada. We saw the spot where the Plymouth Father's embarked, and the ladies of our party were taken for a private motor tour over the moors of Devon.

We could have had no better introduction to the beauties of the Old Country than our trip from Plymouth to Liverpool, for it took us through Devon, Somerset, Monmouth (by way of the Severn Tunnel), Hereford, Shropshire and Cheshire, unfolding before us a complete panorama of English life—rich rolling lands, quiet towns and villages, bustling industrial cities; and it was fascinating to us as Canadian farmers to note the different breeds of animals that were seen in the fields as we passed into the counties famous for them; they also marked the boundaries! Although it was January, men in many parts were working in the fields preparing the land for spring.

Liverpool was reached in the evening where we found our hotel one of the finest in Europe, with steam heat and running water in every bedroom. Here Mr. Weir explained the objects of our tour and presented each of us with a volume containing much information on markets and descriptions of most of the places we were to visit. The next morning, sharp at nine, in bright sunshine and a crisp air we were on our way to the extensive dock system of the Port of Liverpool, through which passes a third of the ocean-going traffic of the United Kingdom. The docks extend for 7 miles, and our visit was to the most recent addition, the Gladstone Docks, which were opened last year by His Majesty the King. The Gladstone Dock which forms part of it, the largest dry dock in Europe, can accommodate the biggest ocean liner. We were shown through one of the three-storey warehouses of this dock whose combined warehouse provides 60 acres of storage space. Even the roofs accommodate goods in times of emergency and from one of them we obtained a view of the whole Gladstone Docks system. Hundreds of cranes, ships upon ships, and piles of merchandise gave us a vivid impression of the important part that Liverpool plays in the everyday commercial life of Great Britain. One vessel alone was unloading 8,000 carcasses of frozen Australian mutton, yet this we were told was considered a very small shipment. The previous ship from Australia had brought five times as much in addition to other cargo!

The docks of the Port of Liverpool are under the jurisdiction of the Mersey Docks and Harbour Board, and during our inspection of the Gladstone Docks, we were the guests of this organization.

The great tobacco warehouse was next visited, where we saw storage space for 70,000 hogsheads of tobacco, each valued at about \$2,500, the value of the tobacco in store at the time of our visit being more than one-third of the total value of Canada's wheat crop last year, and we noted with pleasure a large quantity of Canadian tobacco. Outside the building is an incinerator, known as the "King's pipe" where all condemned and spoiled tobacco is destroyed.

We were now taken to the Liverpool Corn Exchange where we saw a spot market and were able to examine the different kinds of grain that come to the British market from other countries. We also visited the main trading hall where British grain dealers gather for direct trading; and completely equipped laboratory for the grading of grains. Before leaving, we were addressed by R. G. Harker, the President of the Exchange, who in an informative talk told us that one-fifth of the wheat imported through the port of Liverpool was Canadian and one half of that was absorbed by the mills of the Liverpool area.

After lunch we paid a flying visit to the extensive cattle lairage at Birkenhead, across the river, where fat and store cattle are received, now mostly from Ireland, the supply of

Every woman's Maid-of-all-work

Canadian cattle being practically nil. On our return to Liverpool we had the novel and delightful experience of a reception by Liverpool's Lord Mayor, Miss Margaret Beaven.

(To Be Continued.)

NEW STRENGTH FOR ALL WEAK GIRLS

Comes From the Rich, Red Blood Made By Dr. Williams' Pink Pills

There must be no guesswork in the treatment of pale, anemic girls and children. If your daughter is languid, has a pale, sallow complexion, is short of breath after slight exertion or on going up stairs, if she has palpitation of the heart, a poor appetite, or a tendency to faint, she has anemia—the medical name for poverty of the blood. Any delay in treatment may leave her weak and sickly for the rest of her life. When the blood is thin and watery give Dr. Williams' Pink Pills, coupled with nourishing food and gentle out-of-door exercise. The new, life-giving blood which comes from a fair use of Dr. Williams' Pink Pills, increases the appetite, stimulates the nerves and brings a glow of health to pale cheeks. Mrs. Robert Jackson, R.R. No. 5, Shelburne, Ont., praises this medicine for restoring her daughter's health. She says: "When my daughter was nine years old she was so weak and thin that we feared we would lose her. She was very nervous, and going to school seemed too much for her. Often she would have to stay at home for days at a time. At times she would have a very high fever, and the doctor's treatment did not help her. I tried several remedies, but with no good results. One day a friend advised me to give her Dr. Williams' Pink Pills, and I did so. It was not very long after she began taking the pills that I could see a change for the better. She kept on taking the pills for several months, and through them grew into a strong, healthy girl. Since then, if a tonic has been needed at any time, it has always been Dr. Williams' Pink Pills."

The pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

If you are anxious to become a prominent citizen locate in a small town.

Simple and Sure. Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

Better swallow your indignation when you thirst for revenge.

The older the pessimist is the less faith he has in human nature.

SUNDAY SCHOOL LESSON

MAY 27

THE WICKED HUSBANDMEN

Golden Text: "Jehovah knoweth the way of the righteous: But the way of the wicked shall perish."—Psalm 1.6.
Lesson: Mark 12:1-12; 13:1-37.
Devotional Reading: Psalm 1.

Explanations and Comments

The Parable Of the Wicked Husbandmen, verses 1-8. This is the parable which Jesus spoke to the Pharisees. A man planted a vineyard and provided it with all things necessary for the making of wine, protected it with a hedge and watch tower and dug a pit for the winepress. Recall the question of the owner in Isaiah's "Song of the vineyard": "What could have been done more?" This Song was well known to the enemies of Jesus, and when Jesus began in this way they undoubtedly recalled it and its direct condemnation of the leaders of the people of Isaiah's time, and knew that Jesus was about to utter a condemnation of themselves.

Then the lord of the vineyard let it to husbandmen and went away. (Possibly it may be necessary to explain to pupils that the husbandmen were the farmers. One pupil when asked the meaning of the word said they were the married men.) When the season of fruits came round he sent one servant after another to collect what was due to him, but the husbandmen beat one, badly treated another, killed a third; in like manner they treated yet other servants whom he sent. "Which of the prophets did not your fathers persecute?" Stephen cried to the mob which soon stoned him; "and they killed them that showed before of the coming of the Righteous One." "Jesus treats the whole long series of violent rejections as the acts of the same husbandmen. The class or nation was one, as a stream is one, though all its particles are different, and the Pharisees and scribes were the living embodiment of the spirit which animated all the past."—Alexander MacLaren.

"The terrible nemesis of evil is that it ever tends to reproduce itself in aggravated forms. Think of the influence of habit; the searing of conscience, so that we become able to do things that we would have shrunk from at an earlier stage. Remember how impunity leads to greater sin. So here the first servant is merely sent away empty, the second is wounded, the third is killed. All evil is an inclined plane, a steady, downward progress."

Miller's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

Crow and Gopher Campaign

Manitoba Department Of Agriculture Offers Prizes Totalling \$2,000

The Manitoba Department of Agriculture announces a campaign against crows and gophers in which prizes are offered for the persons sending in the greatest number of legs, eggs and tails to the Chief Game Commissioner. For each gopher tail one point will be reckoned, for each crow's egg two points and for each crow leg four points. The first prize is \$100 and minor prizes will bring the whole amount to \$2,000.

Eggs must all be taken and gophers and crows all killed not later than September 1, 1928, and within the province of Manitoba.

Minard's Liment for falling hair.

To the victors belong the privilege of fighting over the spoils.

NEW WHITE STAR LINER LAURENTIC

The new White Star liner "Laurentic," 19,000 tons, completed late in 1927, especially for the St. Lawrence route, which arrived in Montreal on May 8, on her maiden voyage to St. Lawrence ports. With the White Star liner "Albion" she shares the honor of being the largest cabin liner ever to come up the St. Lawrence to Montreal.

WRIGLEY'S
Always have the magic WRIGLEY package in your pocket.
Soothes nerves, allays thirst, aids digestion.
After Every Meal

Trade With China
American tourist business in China is having a far-reaching effect upon the dairy industry of British Columbia. The American tourist has carried to the Orient his well known appetite for ice cream and to meet his demand, ice cream is being shipped to Shanghai from Vancouver. There is also growing Oriental demand for Canadian fruits, butter, beef and bacon.

Men who speak before they think have occasion to offer many apologies.

Don't Make a Toy Out of Baby—Babies Have Nerves

By RUTH BRITAIN

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a soft of animated toy for the amusement of parents, relatives and friends. Baby may be played with but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

ADVOCATE PLAN OF INSURANCE FOR UNEMPLOYED

Ottawa.—The House of Commons committee on industrial and international relations endorsed the principle of unemployment insurance based on compulsory contributions by the state, the employers and the employee in its report tabled in the House.

The report states that the necessity for providing some method of unemployment insurance, "will inevitably have to be dealt with before long as a solution in part, of the industrial problems of the present day."

The report indicates that the success of any plan of unemployment insurance depends upon several of the provinces being willing to act simultaneously.

It is of the opinion that the matter should be referred to the provinces to find out the extent to which they will be willing to adopt legislation respecting unemployment insurance and to what extent they will be willing to go.

The committee experienced difficulty in arriving at approximate costs of unemployment insurance because there was no definite method of ascertaining unemployment at any given point for any length of time.

The committee recommends: "That the government immediately devise some means whereby the amount of unemployment over a period of a year could be reasonably calculated."

The committee also recommends that the government secure from Great Britain advice on the subject and that the subject be dealt with further by the committee at the next session of parliament.

Discusses Antarctic Plans

Wilkins Hopes To Locate Suitable Base For Meteorological Station
Tromsø, Norway.—Captain George H. Wilkins commenting on Spitzbergen's place in the future of Arctic airways, said: "It likely will be the half-way house between Chicago and China."

Wilkins said, in discussing his plans for an Antarctic flight, that he hoped to make an aerial camera survey of the coasts of the Ross Sea to Graham's Land, for the purpose of locating a suitable base for a meteorological station. Such a station would be of great importance in forecasting the weather for Australia, South America and Southern California.

Farm Workers Scarce

Demand In Northern Alberta Exceeds Supply Is Report

Winnipeg.—The influx of immigrants this season has been well covered, and in northern Alberta there is scarcely enough farm help to meet the demands, according to J. S. McGowan, western manager of the colonization department of the Canadian National railways who returned here from a tour of the west.

He estimated that well over a million acres of new land will be cleared and brought under the plow this year in northern Alberta and northern Saskatchewan.

New immigrants, he said, were being used extensively in this work.

Acquire More B.C. Land

Sardis, B.C.—The John I. Haas Hop Company, of San Francisco, that now has 100 acres of land in hops at Sardis, B.C., recently acquired additional 80 acres just south of its present holdings, which will be trellised during the coming season. There were approximately 750 tons of hops grown in British Columbia last year, practically all of which have been shipped.

Amendment Deleted

Ottawa.—The Senate deleted the amendment to the act respecting inter-provincial and international traffic in intoxicating liquors, which permitted the transportation from one province to another of a half gallon or less. Senator Dandurand read protests from nearly all the provinces against the amendment.

File Appeals In Libel Suit

Defendant In Currie Action Claims New Evidence Discovered

Toronto.—Appeals from the verdict of the special jury at the Cobourg assizes last month awarding Sir Arthur Currie, commander of the Canadian corps in France, \$500 damages in his libel action against W. T. R. Preston and F. W. Wilson, of Port Hope, were filed recently. Mr. Preston and Mr. Wilson were not accompanied by counsel when they visited Osgoode Hall to file the appeal.

One of the chief grounds of Mr. Preston's appeal is contained in a statement that new evidence has been discovered. He claims that an order was issued to the respective units of the Canadian corps about 4:30 p.m., November 10, 1918, that operations would be concluded and hostilities cease at 11 o'clock on the morning of November 11.

Other grounds include the assertion that the judge mis-directed and non-directed the jury, that certain evidence was erroneously excluded, and that the judgment was contrary to the evidence.

Mr. Preston and Mr. Wilson filed separate notices of appeal.

Staff Is Kept Busy

Requests For Returns By House Members Are Numerous

Ottawa.—Returns requested by members of the House of Commons are so numerous and voluminous that some of the Government's departments are having difficulty in keeping pace with the demand.

This was stated in the House of Commons by Hon. J. A. Robb, Minister of Finance. Mr. Robb informed the members that Government departments stated that the requests from the House were adding materially to their work. Some of them declared that they must either have more time to get out the returns or more help to do the work.

Mr. Robb made this statement in explaining why it took some time to furnish certain returns requested by members.

Willingdon Opens Institute For Blind

New Building Provides Treatment For Sightless In West

Winnipeg.—The opening of the new building of the Canadian National Institute for the Blind, at Winnipeg, will be the means of not only comforting and supporting hundreds of those now afflicted, but of saving the sight of at least half of those in Saskatchewan and Manitoba whose vision would otherwise be doomed.

This was the repeated statement of successive speakers representative of the institute when His Excellency Viscount Willingdon, governor-general of Canada, officially declared the new building open.

Amendment Defeated

Anti-Dumping Move Lost By Large Majority In House

Ottawa.—A Conservative anti-dumping amendment to supply was defeated in the House by a vote of 110 to 59. The amendment was moved by R. K. Anderson (Conservative, Halton), and was that the government should take necessary action effectively to control the importation into Canada of natural products of a class or kind produced in Canada, under conditions that operate to the detriment of the Canadian producers.

A. W. Neill (Independent, Comox-Alberni), voted with the Conservatives, while the Progressives and U.F.A. voted with the government.

Explorer Reported Safe

Berlin, Germany.—Reports received here from Leh, Northern India, says the German explorer, Wilhelm Filchner, the British missionary, Mat Wilson, and the American missionary, Playmire, arrived safely there. Filchner, in 1920, had been reported murdered together with several members of his Tibetan expedition.

Sending Plane To States

Oslo.—The plane in which Captain George H. Wilkins and Carl B. Eliason flew from Alaska to Spitzbergen, has left Tromsø aboard a ship for Bergen. It will eventually be sent to America on a Norwegian liner.

Formed Permanent Organization

Dr. C. M. Hincks, medical director of the Canadian National Committee for Mental Hygiene, was elected president of the Canadian conference on social work held in Montreal. Due to the success of this first conference a permanent organization was formed with Dr. Hincks at its head.

Ask Higher Tariff On Dairy Products

Findings Of U.S. Commission Not Yet Submitted To President

Washington.—The tariff commission's recommendation on milk and cream duties has not yet been sent to the president. The Canadian Press learned two weeks ago that the findings of the commission which recently investigated the cost of production in Canadian dairies, were ready for the White House, and it was understood that an increase in the duties would be recommended.

The farmers' co-operatives, who claim to represent 981,000 farmers in this country, asked for upward revision of the tariff on practically all products of the farm, except grain on which they already have a prohibitive tariff. In most cases they ask, in their resolution addressed to Congress, about 100 per cent. increase in the existing duties.

No Opposition From Britain

But Chinese Troops Must Not Enter Legation At Peking

London.—The British government has no intention to offer any opposition to the advance of the Chinese Nationalist armies on Peking. Godfrey Locker-Lampson, under secretary for foreign affairs told the House of Commons.

Mr. Locker-Lampson said the Government's only care was to see that these troops did not enter the legation quarters.

Might Make Separate Pact

British Dominions Could Deal Directly With Washington On Peace Plan

Washington.—The possibility that the British Dominions may make separate treaties with Washington to outlaw war is being discussed here.

Secretary of State Kellogg, whose proposals for treaties between the great powers to disavow war as an instrument of national policy have been tentatively approved by Britain, said that he had no official intimation from London that any reservations would be demanded as indicated in news dispatches. He agreed that if any difference of opinion existed as to the exact basis on which Britain would negotiate with Washington, they probably were between Great Britain and her Dominions. He had been informed that London was taking up the whole question with the Dominions before replying to the U.S. Secretary of State's overtures.

Asked if the Dominions would have separate treaties, Secretary Kellogg said that was a matter for the Dominions themselves to decide, in consultation with the British government. In a general way the opinion is expressed here that it would not be inconsistent with the policy of Canada in recent years if Ottawa elected to deal directly with Washington when it comes to a declaration of policy on the arbitration of disputes and the outlawing of war.

Exports Cut In April

Imports Were Higher and Income Tax Revenue Increased

Ottawa.—Canadian exports in April were lower in volume than a year ago, while imports were higher. Revenue from customs and excise were lower by nearly a million dollars in April last than in April, 1927.

Revenue from income tax was nearly two million dollars more last month than in April a year ago, according to the monthly statement issued by the Department of National Revenue.

Sending Observers To Geneva

Washington.—While the United States has declined an invitation to participate in the eleventh international labor conference at Geneva beginning May 30, it is learned that both the United States government and the American Federation of Labor will send unofficial observers to watch proceedings.

Railway Manager Arrested

Warsaw, Poland.—Police arrested Stanislas Turek, assistant manager of the railway administration, and three other men, charged with selling secret plans for Polish railway mobilization in case of war to Moscow. The men also are accused of betraying secrets of Polish airplane manufacture.

DID NOT NAME MR. McMURRAY SAYS HON. FORKE

Ottawa. Emphatic denial of any knowledge that Hon. E. J. McMurray, former Solicitor-General, had trafficked in special immigration permits was made at the parliamentary immigration inquiry by Hon. Robert Forke, Minister of Immigration.

"I can state emphatically that I did not make any of the statements which Mr. Coldwell says I made about Mr. McMurray," Mr. Forke declared, in referring to the statement by Ald. M. J. Coldwell, of Regina, that Mr. Forke had named Mr. McMurray in this connection.

"Mr. McMurray's election was in 1925, two years before I came into the department," Mr. Forke continued, "and I knew nothing about Mr. McMurray's transactions with the department, if any took place, and since I came into the department I have had no dealings with Mr. McMurray, directly or indirectly."

"Regarding Mr. Coldwell's statement about my telling him I had checked up the records of the department regarding the number of permits issued by my predecessors, and that I said I wrote my predecessor and that he wrote his predecessor, I want to say positively, that if Mr. Coldwell got this information at all, he did not get it from me," Mr. Forke continued.

"At no time did I ever examine or check up the previous records of the department in regard to the number of permits issued by my predecessors, I have no knowledge of the number of permits issued by them and I did not write to any predecessor in connection with the number of permits which had been issued."

Hon. R. J. Manion, (Conservative, Fort William), was given permission at the outset of the sitting to make a statement in respect to the casual mention of his name by Ald. Coldwell.

"I wish to state emphatically that in the time I was acting minister of immigration in July, 1926, I personally issued no permits to anyone and no permits were illegally or irregularly issued to anyone," Dr. Manion declared.

"In fact no permits of any kind were issued which were not wholly within the law and the regulations."

Dr. Manion emphatically denied that he had communicated at any time by word or letter with Mr. Forke regarding permits. He felt that Mr. Forke would agree with him in this statement.

Salary Increase For Judges Recommended

House Will Have To Approve Report Of Committee

Ottawa. An increase in salary to Canadian judges has been approved by the special parliamentary committee. The committee's report will, it is stated, recommend an increase of \$2,000 to county court judges; the same amount to provincial court judges, and \$3,000 increase for judges of the supreme court of Canada.

The committee held its sessions in camera. It is understood that the report was only adopted on the casting vote of the chairman.

The committee's recommendation will have to receive the approval of the house.

An increase in salary of \$2,000 per annum is also recommended for judges of the exchequer court of Canada.

The conclusion reached by the committee was that the remuneration paid to judges in Canada was inadequate and should be increased.

May Be Envoy To Canada

Washington.—It is rumored here in diplomatic circles that Setsuzo Kawada, counsellor to the Japanese embassy here, will be the first Japanese minister to Ottawa. The Japanese embassy declines to comment on the rumor.

Will Not Resign

Bucharest.—Premier Bratianu will tell the Rumanian parliament that the cabinet has no intention of resigning or heeding other of the peasants' demands, it is learned from semi-official quarters.

TWO IS COMPANY

Rolf Hansen and Anna Auguzen, of Oslo, immigrants, were married in the Canadian National Railways Colonization Offices by Rev. T. J. Langley, of the Norwegian Lutheran Church, on their arrival in Winnipeg. They desired to face their new life in Canada as man and wife rather than to separate. They will go on a farm near Birch Hills, Sask.

Hon. Vincent Massey Speaks On Peaceful Relations Between Canada And The United States

The peaceful relations between Canada and the United States are founded on practical principles," said Hon. Vincent Massey, Canada's minister of the United States in a speech before the American Peace Society, delivered at Cleveland.

In conveying the greetings of Canada, Mr. Massey said that he happened to be the only representative of British America present, and he might be permitted to add to Canada's good wishes those of Newfoundland, the British West Indies and all the countries in America which owe allegiance to the British crown.

Canada and the United States, said Mr. Massey, had gone a long way towards a solution of the problem of peaceful neighborliness.

"We may point with some pride to a tradition of tolerance and common sense in our dealings with each other," he said. "It is true in our enthusiastic moments we refer to our peaceful border in unrestrained imagery, but underneath our rhetoric there is solid fact. No two nations can point to an achievement like that of the international joint commission, which for fifteen years and more has been settling intricate and delicate questions in connection with the waters on our boundary line. It is a matter for deep satisfaction that, to quote a recent learned authority, in a long list of cases there can be discovered no instances where dissatisfaction has arisen over the orders of this body. Its orders have never been disobeyed, although it possesses no powers of police to enforce its orders. What a triumph in international co-operation there is in this fact, that in all its cases this commission has never divided along national lines, and only once was it divided at all! We may well regard the work of this body as an impressive example as to how two neighboring nations, which are accustomed to trust each other, may deal with common problems."

This principle of arbitration in Canadian-American relations has been embodied in the policy of both countries since the Jay-Greenville treaty of 1794, providing arbitration as a means of settling boundary disputes, Mr. Massey pointed out. The principle then set up had been scrupulously observed ever since.

The Canadian minister expressed great faith in the practicability of the various peace movements now going on throughout the world, in spite of the sceptics, the road to peace was open.

"More human beings are now bent on preventing wars; more people are thinking in terms of peace, than ever before. Governments are directing their energies to this end as they never have done in the past. Do we hear more of war? The fact is that we are more conscious of the cruelty and futility of war than ever before, but there lies the hope that the consciousness of a disease is the first step towards its diagnosis and cure."

No Argument

A new 5 and 10-cent store had been opened by a man named Cohen. A woman came in one day and selected a toy for which she handed the proprietor a dime.

"Excuse, lady," said Cohen. "but these toys are 15 cents."

"But I thought this was a 5 and 10-cent store," protested the customer.

"Well, I leave it to you," came the reply; "how much it is, 5 and 10 cents."

"Waiter, there is a fly in the soup."
"Well, after all, a fly can't drink much," Jugend, Munich.

W. N. U. 1734

Greatest Aids To Agriculture

Industry In Canada Has Received Most Benefit From Non-Farmers

Agriculture's greatest aids in Canada during the last 50 or 70 years have come from men who have never farmed, J. H. Evans, deputy minister of agriculture for Manitoba, told the Legislature recently.

"A doctor who had never farmed learned in 1850 that wheat rust had different spores, and if these could be destroyed the fungus would be eliminated," Mr. Evans said. Pathologists had been using that information as a basis for research ever since.

Pasteur, the French chemist and scientist, had brought immeasurable benefits through his "Pasteurization process," evolved in 1857 to aid wine-makers whose products were spoiling. William Sanders, a druggist, had hybridized many brands of wheat to select the best and produce the grade known as Marquis.

Mr. Evans asserted that it was not very encouraging to the farmers, after years and much money spent to grow better seed and better stock, to have to sell these products for a low price "dictated by the businessmen."

Perfect Simplicity

A sports dress is smartest, of course, when it's simple. Style No. 837 is extremely popular. It is particularly fetching, made of striped novelty sheer woolen with the stripes reversed for the front panel. The belt is attractive slipped through openings and tied at side. It can easily be made in an hour and only requires 3 yards of 40-inch material for the 36-inch size. Two surfaces of crepe satin, printed and plain silk crepe, and georgette crepe in two-tone effect, are lovely combinations. Pattern is obtainable in sizes 16, 18 years, 36, 38, 40, 42 and 44 inches bust measure. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

FINDS HAPPINESS

Malka Mea Schmulder, eight years old, a Polish orphan, who travelled 7,000 miles alone to find a new home. On her arrival at the Canadian National Railways station, Winnipeg, she was met by her new parents.

Mineral Springs Of Canada

Spring Water With Curative Powers Occur In Many Parts Of Dominion

The production in mineral waters in Canada in 1927 amounted to 303,529 gallons, valued at \$14,686, and was derived from mineral springs located in Ontario and Quebec. Spring waters containing minerals in solution, or as they are usually termed, mineral waters, occur in many parts of the Dominion. Many of them are utilized commercially, both as potable waters and for bathing purposes. At several of the springs where the waters have curative properties, hotels and sanitariums are operated. Some of the thermal springs are utilized principally for mineral baths.

Infatuated Youth: Thinking of me, darling?

Weary Girl: Oh, was I laughing? I'm so sorry.

The average man is ready and willing to die for his country—of old age.

Canadians Living In U. S. Will Erect Memorial At Ottawa As A Confederation Gift

Will Not Incur Large Debt

But Highway Building In Saskatchewan Will Be Speeded Up

"No one had ever criticized the highway map of the Province and the type of earth road is as good as any built anywhere, and they are well designed," says Hon. Geo. Spence. The Saskatchewan Minister of Highways, Labor and Industry goes on to point out the economical aspect of highway building and travelling, which is being commenced this summer. "The Province is in a splendid financial position today. We are going to speed up but will not go head over ears in debt. Colonization is needed, but colonization is a human problem. You can't dump people into the country and not take care of them. Provincial highways had been built to serve points in the East, West, North and South, but no government can build more highways than the people can pay for. They must be built where they will give the greatest service."

"Air survey will be proceeded with this summer; the Dominion government will do this," he said. "They have the equipment but the provincial government will be able to give the information to the people. Tourist traffic by lake and river will be made a study, but until the fullest information is obtained no charts can be made. It would not be safe. The work of constructing the road into the new park in the North is under way. It will be completed in time for the opening of the park in August, and in July will begin the work of removing the loose boulders from the river and Montreal Lake. When this is done it will open up a fine waterway route in the tourist district."

Shorthorn Cow With a Record

U. A. Roan Lady, 101st.—168547.—a registered Shorthorn cow in the herd of the University of Alberta, Edmonton, recently completed a 365 day test during which she produced 15,428 pounds of milk with an average test of 4.3 per cent., making a total of 664 pounds of butterfat. This record places her sixth highest in Canada in point of butterfat production for Shorthorn cows.

The Canadian Rocky Mountains consist geologically of the upturned edges of the strata underlying the Great Central Plain of North America.

Seeing Sights the World Over

Possibly you have a friend who was a passenger on the round-the-world cruise of the Canadian Pacific Steamship "Empress of Australia." If so, you have already heard the stories of ports visited, and the strange sights witnessed. In clubs, homes, and lecture halls you will hear about where the passengers saw the largest Buddha in Japan, how the Whanpoo River, China, looks in the moonlight with its queer craft silently scurrying with unknown cargoes to and from various ports, while from the cabin comes the wailing of the Chinese flute.

Then there is the spectacle of the mongoose in conflict with a huge cobra, a battle royal in which the former is always the victor, usually through his habit of securing a good hold with his mouth and crushing the head of the snake. Another interesting thing is to see the Hindoo with

his flute charm a deadly poisonous snake, finally playing on the musical nerves of the reptile to such an extent that he gradually sways from side to side in accompaniment to the Oriental music. Photo shows a motor of the desert being carefully shaved by his attentive chauffeur, incidentally the owner looks over the camel's teeth to see if any are in the stage where pulling is necessary. Inset gives a silhouette at sunset on the River Nile.

A sketch of the May memorial to be erected in the Parliament Buildings at Ottawa, as a Confederation gift from Canadians resident in the United States, has just been published in New York. The sketch, submitted by Dr. R. Tait McKenzie, of Philadelphia, and approved by the National Memorial committee, symbolizes the development of Canada.

Four figures occupy the immediate foreground. On the left is Canada enthroned, her right hand on a shield emblazoned with the arms of United Canada of today, her left outstretched to receive the offerings of her children. She wears a head dress with caribou antlers and the short tunic and sandals of Diana; a youthful girl figure, the youngest of the Nations.

The central figure is a small child, the Canadian of the future, staggering under the weight of the wheat sheaf he is bringing. Behind him and partly supporting him is a stalwart youth, the Canadian of the present, relinquishing his rifle and looking forward to Peace and Industry. Behind him a young woman kneels and receives his rifle with one hand and with the other pours out from a basket the fruits of the earth at Canada's feet.

The engineer is stepping down into the foreground with a theodolite on his shoulder. At his heels come, in procession, the lumberman, with his axe, and the fisherman with his nets, established on both coasts before the land was settled. Farther back at the side is seen a group; a man, with a hunter's rifle, and a woman and child, standing among the trees in front of the settler's cabin. On the opposite side an Iroquois Indian lurks in the forest watching them.

The upright pine trunks form a frame through which is seen the figure in low relief of Jacques Cartier on the deck of his ship, as he sails up the St. Lawrence. Kneeling behind him a Jesuit priest upholds the cross; a reference to the religious character of the first settlement of Canada.

The relief of the figures becomes lower as the history recedes but the figures on the foreground stand out boldly, almost in the round.

The panel is about ten feet square and is supported on a pedestal about three feet high on which the inscription will be carved.

There are approximately a million and a quarter men and women of Canadian birth resident in the United States. To give expression to their sentiments of pride in and devotion to their native land this memorial at Ottawa was proposed. The sixtieth anniversary of Confederation, celebrated last year, provided a fitting opportunity to present it. It will be erected at a cost of \$50,000, the amount to be raised by popular subscription among Canadians residing in the United States.

Through the courtesy of the Canadian Government the most desirable site within its gift was made available to the Memorial Committee and accepted. This location is a large panel in the main corridor of the Parliament Buildings leading to the Hall of Fame and opposite to and balancing the Memorial group already erected there to the Nursing Sisters in the Great War.

Time was of course too short to consider the erection of the Memorial itself for unweaving at the Jubilee ceremonies in Ottawa on July 1, last. A temporary tablet was therefore made, placed within the panel the memorial will occupy and in the presence of His Excellency Viscount Willington, Governor-General of Canada, the Right Hon. W. L. Mackenzie King, Prime Minister, and a distinguished gathering, solemnly unveiled and formal presentation made by W. W. Colpitts as chairman of the National Committee. The gift was gratefully accepted on behalf of the Canadian people by the Governor-General and the Prime Minister.

The Tablet reads:
"In the sixtieth year of the Confederation of Canada and in commemoration of this event Canadians who live in the United States will cause a memorial to be erected here in token of their devotion to the country of their birth and as a proud tribute to the achievement of its foundation."

Copyright, Canada, 1925

CHAPTER XXIV—Continued.

Then he exalted war and military life. It developed the best in a man, and at this the Major beat his breast, directing his audience to that storehouse of accumulated virtues. Then he appealed to the young men to "get into the game." He painted the glory of it, the freedom of it; the army was the place where a man was a man. The nation's hero was the warrior—mollycoddles have no place in the world, especially with women. There was truth in the old song yet:

"If a lad a lass would marry
He must learn a gun to carry."

Then in a lighter vein the gallant Major hinted at the charm of the French girls and how they admired the Canadians. His manner indicated that but for the presence of the ladies he could tell more.

While he was speaking, Pte. Crowe's hands were never still, nor did his lips cease from trembling.

The Major then called for recruits. "One volunteer," he said, "is better than ten conscripts. Conscript is coming, though"—he gloated over this—"we cannot desert our Army now. If men will not fight of their own accord, there are other methods." The Major unconsciously tapped his sword.

Suddenly it became apparent, even to the Major, that the spirit had gone out of the meeting. His audience sat stony-faced and rigid—the fires had gone out—the current was off. There was no response to his call.

The appeal had not gone home to the men of the north, who love the long trail, with its camp-fires and its peace; brave men, who do their duty from an inward sense, but to whom the thought of force brings not fear but rebellion.

The chairman tried to save the situation by calling for a song, but something had gone from the meeting. The people began to straggle out.

As Jack made his way back to the hotel he was deeply disturbed in mind. There was no moon, but the night was bright with stars. Looking up, he saw the North Star, like an old friend, looking so remote, serene and undismayed, though nations were rocking with war and hatred. The Major and his fiery eloquence were easy to turn aside, but Pte. Crowe, so pale and shaken, quivering with the horror of war, walked beside him in spirit.

The hotel that night sounded with jangling noise, shrill voices, snatches

WOMAN SO SICK COULD NOT WORK

Helped by Taking Lydia E. Pinkham's Vegetable Compound

Grainland, Sask.—"I am glad that I heard of that good Lydia E. Pinkham's medicine and I will not be without it again. I was so sick that I could not work at all and could not sew on the machine. My aunt told me of Lydia E. Pinkham's Vegetable Compound and now I am telling all of my friends how good it is and I will answer all letters I get from women."

—MRS. MARY SCHULTZ, Grainland, Sask.

W. N. U. 1724

of song, bursts of harsh laughter. The Major was a prince of story-tellers. "Say, boys, did you hear this one? One of the boys who had been on leave . . . "Roars of laughter followed, then more beer. "Too much hard liquor is bad," laughed the Major, "but too much beer is just right. No danger of being pinched for being noisy—we have both the proprietor and the policeman. Now, listen to this. There was a French girl . . . "

At one o'clock the party broke up. The Major had secured six names. He decided the next morning to let Private Crowe go back to the City. The kid was all right, but he lacked "pep." This was a job for a real man, and after all, the best little recruiter apart from himself, if it ever could be considered from himself, was the amber-colored bottle. It gave just the proper warmth and glow.

Jack made his journey around by Edmonton to Eagle Mines, arriving there on the first day of February. There had been no reply to his wire. He stepped off the train with a strangely beating heart. Helmi would be there, surely, but the platform was almost bare. Not a person whom he knew did he see as he hurried across the street and over to his own house.

The door was not locked, and he went in. A strange scene met his eyes—dirty dishes on the table, the remains of a slovenly meal; ashes from cigars on the plates; the bed showing that it had been slept in; the coffee pot was on the stove. The floor had been tramped by muddy feet and spat upon by tobacco chewers, and a forgotten pipe was on the window-sill. The air was heavy with tobacco smoke and the stale fumes of beer.

Jack's heart was heavy with apprehension. He went up to the loft by the ladder on the wall. The bed there had been used too, and a man's coat was thrown across it. There it was—the house he had built—defaced, defiled. What did it mean? He would know what it meant, he would go over to the boarding-house.

Mrs. McMann, a few minutes later, related the interview to her friend Mrs. Turner. "He bounded in at me," she said, "just when I was putting the potatoes on to boil. 'Where's Helmi?' he almost shouted at me, without even bidding me the time of day. How could I tell him where Helmi was? 'She's not here,' I said, 'and I don't know where she is—she's been gone over a month.' I says, 'Where did she go?' he said. 'To Edmonton,' I said.

"Why did she go?" he stormed! Didn't she know I was coming back! 'Where did she say she was going?' 'Well, Helmi never confided in me, as you know,' I said.

"Land! I couldn't tell him why she went. I never was one that could talk about those things. I don't believe any of my people could. The Weekses were funny that way.

"Where's Sim?" he said at last, staring at me as if he didn't see me. "Sim had an accident in the mine, and went out the last train." "Well, look here, Mrs. McMann, who has been stayin' in my house," he says, "can you tell me that?"

"I knew very well a party of hunters had spent the night there—swells from town out deer shootin'—drunk as fools, too—I wouldn't let them in—I certainly have no knowledge of what's been goin' on in your house since you've gone," I said, very stiff. Mr. McMann always said there was no one could be stiffer than I could when I wanted to be. "Do you know of anyone having stayed there?" he said. "Yes," I says, "the crazy Englishman from English Creek was there for a week, about six weeks ago."

"Lord, I thought he was goin' to strike me—but none of the Weekses was ever cowards, so I just glared back at him stiff as pork. I could give him eye for eye, let me tell you. He went out at that and over the the office. I think maybe he expected a letter from Helmi, but if she's written to him it's more than she's done for any of us. Gone over a month and not a word from her. And I was good to that girl, though I ain't the one to tell what I've done for anyone. Now, if Jack Doran had come in a better spirit he might have heard more from me. I'm funny that way, anyone can lead me, but strong horses can't drive me."

Jack Doran went to the postoffice. His voice sounded queer to him, and his tongue felt like a piece of rope. "Are there any letters for me, Mr. Armstrong?" he asked, hoping his

Experience of more than thirty years proves that aluminum is the only completely satisfactory material in which to pack tea. Red Rose tea is put up only in aluminum, and a "money-back" guarantee goes with every package.

11-W

voice was not beating like his heart. "Two have just come for Mrs. Doran," said the postmaster, handing them to him. "Glad to see you back to us again, Jack. People come and go at Eagle Mines—come and go—it makes it hard for a postmaster."

Jack went back to his own house—he must get under cover—the eyes of the people he met hurt him—they bored into him, twisting, turning, screwing, gouging, red-hot and sharp as ice. He must get somewhere where he could shut the door.

In his own house, Jack sat with the letters in his hand. Helmi had gone, she had not waited. He was a month late, but Helmi should have waited. Where had she gone?

The letters might tell him—it would be better to know. He opened the first one and found it contained a Government cheque for fifteen dollars payable to Helmi Doran, and it said it was on account of Pte. Arthur Warner. Jack stared at it without understanding.

The other letter was from Montreal. "Dear Helmi," it said, "I have made over my separation allowance to you, and I hope you will accept it from me. You are the only person in Canada who has any claim on me. I have paid every other person in Canada for everything they have ever done for me. You, dear Helmi, I can never pay in money, for you gave me the most precious thing a man can have who goes out as I am going, a memory of something tender and sweet. I have made my will, leaving everything I have to you. I will never forget your last words to me. Nobody ever spoke to me like that before. Will you write to me, Helmi?"

Ever Yours,

Arthur Warner.

(To Be Continued.)

Could Hardly Live For Asthma, writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

Jap Flier Was Ambitious

Not satisfied with his first record for night flying, Captain Toshio Kato, of the Japan aviation school at Tokyo, immediately flew again and established a new record. He hopped off at 5.30 o'clock in the evening and broke by 35 minutes his previous record of six hours in the night air. He immediately flew again and remained up until 9.25 o'clock in the morning, beating his previous record of the night by three hours. Most of his flying was in dense fog.

Neuralgia succumbs to Minard's Liniment.

Don't believe all a man says about his neighbor, nor half he says about himself.

Love and potatoes must be akin—they both spring from the eyes.

CUTICURA HEALS LARGE PIMPLES

Caused Itching Burning,
Also Disfigurement.

"My complexion was completely marred by pimples which varied in size. Some were large, hard and scaly, while others were just red and feasted. They caused an itching, burning sensation, also disfigurement."

"After using scores of remedies for over two years, with but little results, I sent for a free sample of Cuticura Soap and Ointment. I was so pleased with the results that I purchased more, and after using two cakes of Cuticura Soap and one large box of Cuticura Ointment I was completely healed." (Signed) W. E. Blackburn, 29 Bellevue Ave., Toronto, Ont.

Use Cuticura to clear your skin. Sample Each Free by Mail. Address: Canadian Depot: "The Canadian Depot," 25 and 26c. Telcom 25c. 25c. Cuticura Shaving Stick 25c.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

WHY "NEW TEETH FOR OLD"?

Perhaps you were wondering why little sonny had to lose his "baby" teeth and have them replaced with new ones.

Why, you asked yourself, do they not remain permanently and develop in size during the growing years just as do the ears and eyes?

"Because they become decayed" you say; but not necessarily so since tooth decay is a disease and is therefore abnormal and preventable; and for that matter, when you lose a tooth through decay at six and twenty, does a new tooth replace it?

But consider: You have seen a little sapling grow to be a big tree—"large oaks from little acorns grow"—but did you ever hear tell of a small pebble growing to become a large stone? Not likely so, and for obvious reasons for, as you know, the tree is of organic matter, while the stone is of inorganic.

Now the tooth, being composed largely of inorganic matter, especially the outer enamel covering, which is almost wholly so, like the pebble, cannot of itself change in form, and so grow larger once it is fully developed.

Obviously too, sonny's little jaw has no room for the larger teeth that he will need when he is fully grown.

So unlike the potatoes that "from little ones do big ones grow" we have instead, "new teeth for old."

These baby teeth then serve temporarily for mastication until the maxillary or jaw bones are sufficiently developed to accommodate the larger permanent teeth of adult age.

They are mother Nature's expedient, as it were, and a good expedient too, if given half a chance.

No matter how deep-rooted the corn may be, it must yield to Holloway's Corn Remover if used as directed.

Little Helps For This Week

"Inasmuch as ye did it not to one of the least of these, ye did it not to me."—Matthew xxv, 45.

Living, thou dost not live
If mercy's spring run dry,
What Heaven has lent thee wilt thou freely give,
Dying, thou shalt not die.

He promised even so:
To thee His lips repeat,
Behold, the tears that soothed thy sister's woe

Have washed thy Master's feet.
—Oliver Wendell Holmes.

The final test of religion at that last day is not religiousness, but love; not what I have done, not what I have believed, but how I have discharged the common charities of life. By what we have not done—by sins of omission—we are judged. It could not be otherwise. For the withholding of love is the negation of the spirit of Christ, the proof that we never knew Him, that for us He lived in vain.
—Henry Drummond.

Recipes For This Week

(By Betty Barclay)

CREAM OF ASPARAGUS SOUP

Wash each stalk of asparagus carefully with a vegetable brush to remove all grit. Then cut in small pieces (using all but the very tough parts). Cook, covered, until the asparagus is tender, in enough water to cover. Add salt to taste just before the asparagus is done. Allow two cups cooked asparagus and cooking water to 2 cups medium cream sauce (2 cups milk, 4 tablespoons flour, 4 tablespoons butter). Season and serve hot.

Note: The less tender part may be cooked longer and put through a sieve. If desired, the tops may be used for salad).

FRUIT BLISS

2-3 cup sugar.
1-3 cup water.
2 egg yolks.
4 tablespoons lemon juice.
Red color paste.
3 cups fruit.

Boll sugar and water five minutes. Pour over egg yolks, cook over hot water until thick, stirring constantly. Add lemon juice and red color paste and chill. Pour over fruit, using peaches, oranges, red cherries and strawberries cut in pieces. Serve very cold. Serves 6.

The time to take care of the coming years is this year.

Minard's Liniment for Toothache.

THERE is nothing quite equal to Aspirin for all sorts of aches and pains, but be sure it is Aspirin. The name Bayer should appear on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box when you buy it:

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

Enlisting Their Sympathy

Counsel for the victim of a motor-vehicle accident: "Gentlemen of the jury, the driver of the car states he was going only four miles an hour. Think of it! Think of the agony of my client, the victim, as the car drove over his body at four miles an hour!"

A Reliable Antiseptic.

Make sure no infection of cuts and wounds takes place, by applying Minard's Liniment.

Spring Bull Sale

The spring bull sale, an annual event in Calgary, since 1901, broke all records for prices. Approximately 400 bulls were sold at an average price of nearly \$300. The champion Hereford sold for \$1,125.

Why Firestone Tires Give Most Miles Per Dollar

The greatest enemy to tire life is not the harsh grind of city streets or rough roads, but heat which is created inside the tire by internal friction. Heat not only weakens the fabric, but also softens the rubber, causing blowouts and tire failures.

The above illustration shows a single cord of a Firestone tire greatly magnified and untwisted into fifteen smaller cords composed of many little fibres.

By means of the exclusive Firestone Gum-Dipping process, every fibre is insulated with rubber, which prevents internal heat and friction.

Your local Firestone Dealer gives you the better service that goes with these better tires. See him today.
